

# Cycling in a Sustainable Kingston

**Wednesday  
March 30th**

**Afternoon &  
Evening Sessions**

**An event not to be missed  
if you want to know...**

- How active transportation can save you money while gas prices rise
- How active transportation can help Kingston become Canada's MOST sustainable city
- What Kingston's Coalition for Active Transportation can do for YOU!

## Speakers:

**Eleanor McMahon:**

**'Role of municipal politics in cycling'**

Eleanor is founder of the Share the Road Cycling Coalition which works to engineer legislative change in Ontario to promote active transportation.

**Hans Moor:**

**'Trends and Economic impacts on cycling'**

Hans will speak about trends and economic impacts on cycling in The Netherlands, showing how cycling is not only about enjoying a slower pace of life, but even more, a remedy against increasing health and infrastructure costs.

Hans is Officer, Economic and Commercial Affairs, Embassy of the Kingdom of the Netherlands and President of Ottawa's Citizens for Safe Cycling,

This event will be hosted and moderated by members of the Kingston Coalition for Active Transportation

**An event for professionals, students, local politicians, businesses, community groups and residents to join the discussion about Active Transportation in Kingston.**
